

## Trademark Registration Process

### Step 1. Trademark Comprehensive Study.

By carrying out an optional Trademark search, the Study will inform about your chances of obtaining Trademark registration.

### Step 2. Trademark Application Filing.

Our trademark attorneys will elaborate, file and prosecute your Trademark application throughout its legal process. The estimated time for this process is about 6 months.

In case an official action or an objection arises, our trademark attorneys will file an immediate and effective response.

### Step 3. Trademark Registration.

Once the Trademark registration is granted, the Mexican Trademark Office will issue the Trademark Registration Title which concedes its owner its exclusive use within its international class for the next 10 years.
